

CITY OF WILLMAR

**PLANNING COMMISSION MEETING
7:00 P.M. ON WEDNESDAY, FEBRUARY 19, 2020
CONFERENCE ROOM #1
CITY OFFICE BUILDING**

Chair: Christina Nelson

Vice Chair: Rolf Standfuss

Members: Steve Gardner, Jeffery Kimpling, Cletus Frank, Jonathan Marchand, Terry Sieck, Dr. Jerry Kjergaard, and Khalif Ahmed Bashir.

AGENDA

1. Meeting Called to Order
2. Minutes of January 8 & February 5, 2020 meeting
3. Paffrath Phlatz Minor Subdivision
4. Renaissance Overlay District Incentives Package Review & Discussion
5. Miscellany
6. Adjourn

**WILLMAR PLANNING COMMISSION
CITY OF WILLMAR, MN
WEDNESDAY, JANUARY 8, 2020**

MINUTES

1. The Willmar Planning Commission met on Wednesday, January 8, 2020, at 7:00 p.m. at the Willmar City Offices Conference Room #1.

**** Members Present:** Steve Gardner, Rolf Standfuss, Jeff Kimpling, Terry Sieck, Jonathan Marchand, Dr. Jerry Kjergaard, and Christina Nelson.

**** Members Absent:** Cletus Frank.

**** Others Present:** Theresa Brown, Becky Zondervan, and Doug Zondervan – Bargains and Blessings, Sarah Swedburg - Planner.

2. MINUTES: Minutes of the December 18, 2019 meeting were approved as presented.

3. BARGAINS & BLESSINGS REZONE I-1 TO GB – FILE NO. 19-06: The public hearing opened at 7:01 p.m. Staff presented, on behalf of Wilson Tool & BRZ Vineyards (Bargains and Blessings), a request to rezone property from I-1 (Limited Industry) to GB (General Business) on property described as: Part of the North ½ of the Southeast ¼, Section 16, Township 119, Range 35 (601 & 705 Industrial Dr SW). Staff reminded the Commission of the discussion during the introduction of this item at their December 18th meeting. The original Commercial Corridor leading into the Industrial Park was created in 2018 to allow the provision of services to the Industrial Park business owners and their employees.

Doug Zondervan spoke on behalf of Bargains and Blessings, thanking the Commission for their review and consideration of this rezoning, which will allow the reuse of an old industrial building for commercial use.

No one else appeared to speak for or against the request and the public hearing closed at 7:05 p.m.

Commissioner Steve Gardner inquired if there has been any discussion with Willmar Pet Hospital. Staff has not had any contact with them, but all property owners within 350 feet of the subject area were mailed a Public Hearing notification, including Willmar Pet Hospital.

Mr. Standfuss made a motion, seconded by Dr. Kjergaard, to approve the rezone and forward it onto the City Council for Ordinance introduction and adoption.

The motion carried.

4. 2019 YEAR IN REVIEW: Staff provided a brief recap of projects that the Planning Commission has reviewed in 2019. Staff also received a report from the MinnWest Technology Campus that they continue to move forward with solicitation of businesses and remodeling of buildings – only 2 have not been remodeled, though the location that the CABHS facility is currently located in will be fully remodeled after they move to their new location by MnDOT District 8 Headquarters. The City of Willmar continues to see significant investment, and we look forward to gearing up for another great year in 2020!

5. REORGANIZATION: Dr. Kjergaard made a motion, seconded by Mr. Standfuss, to nominate Ms. Nelson for Chair.

The motion carried.

Mr. Marchand made a motion, seconded by Dr. Kjergaard, to nominate Mr. Standfuss for Vice Chair.

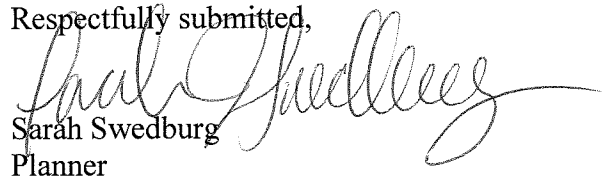

The motion carried.

Mr. Standfuss made a motion, seconded by Dr. Kjergaard, to nominate Mr. Kimpling for Secretary.

The motion carried.

6. There being no further business to come before the Commission the meeting adjourned at 7:25 p.m.

Respectfully submitted,

Sarah Swedburg
Planner

**WILLMAR PLANNING COMMISSION
CITY OF WILLMAR, MN
WEDNESDAY, FEBRUARY 5, 2020**

MINUTES

1. The Willmar Planning Commission met on Wednesday, February 5, 2020, at 7:00 p.m. at the Willmar City Offices Conference Room #1.

**** Members Present:** Christina Nelson, Jeff Kimpling, Steve Gardner, Jonathan Marchand, Cletus Frank, and Khalif Ahmed Bashir.

**** Members Absent:** Rolf Standfuss, Terry Sieck, and Dr. Jerry Kjergaard.

**** Others Present:** Sarah Swedburg - Planner.

2. MINUTES: Minutes of the January 8, 2020 meeting were tabled, as they were not a part of the distributed packet.

3. INTRODUCTIONS: The Commissioners introduced themselves to the newly appointed Planning Commissioner, Khalif Ahmed Bashir, who is joining the Commission after his appointment on the Board of Zoning Appeals.

4. RENAISSANCE OVERLAY DISTRICT INCENTIVES PACKAGE REVIEW & DISCUSSION: Staff walked the Planning Commission through the proposed Renaissance Overlay District incentive package. This package is currently in the vetting phase, where we are looking for feedback & input regarding the content; it has been sent via email to a number of stakeholders throughout the City and is posted on our website for anyone to review. Nothing has formally been approved, and staff encourages all to review and submit any ideas that may be missing or details that may need to be altered to make this package most accessible and sensible for Willmar. Incentives proposed in this overlay include tax abatement, free City permits, zoning overlay, etc. All incentives require specific development/investment targets be met in order to qualify for the programs.

The Commissioners discussed a number of questions regarding the basis for targets within this package such as the dwelling unit goals (500 in 5 years), 3-story height minimum for incentives such as tax-abatement, 5% income restricted units for housing-only developments etc. Some concerns were resolved with the clarification that the dwelling unit goal is in the entire Renaissance Zone area, not just in the currently designated Central Business District zone. Commissioner Nelson expressed concern that 5% income restricted units for housing-only developments is not the correct ratio.

Commissioner Frank is a downtown property owner & questioned if the store facade loan program would be better allocated for assisting roof repairs, structural, or wall repairs rather than store facades (or perhaps all four of those repair items). He expressed the

financial burden that property owners face with roof repairs, due to the age and flat roofs that the majority of downtown buildings have.

The Planning Commission also discussed the anticipated sentiment that may be created in town among property owners outside of the Renaissance Zone - "If you can eliminate building permit fees there, why can't you do it here?" Discussion commenced about the purpose for targeting this area and the justification for our proposals. Additionally, staff reiterated that this would be a 5-year pilot program and could provide us with insight for moving the location in the future. Commissioner Kimpling expressed the desire to see this incentive program have some flexibility built in, in the event that small details need to change.

Lastly, the Planning Commission inquired about the timeline of approval. They expressed the desire to get it done right than get it done in a hurry.

Planner Swedburg will bring forward this discussion to Dr. David Ramstad, Planning & Development Director for documentation in our vetting process. She will also request Dr. Ramstad's attendance at the second meeting in February to continue discussion of this package. The next meeting in this vetting process will be with downtown property owners on Tuesday, February 11th at 5pm at Spurs Restaurant; these details will be sent via email as a reminder to the Commissioners if they wish to attend.

5. There being no further business to come before the Commission the meeting adjourned at 8:17 p.m.

Respectfully submitted,

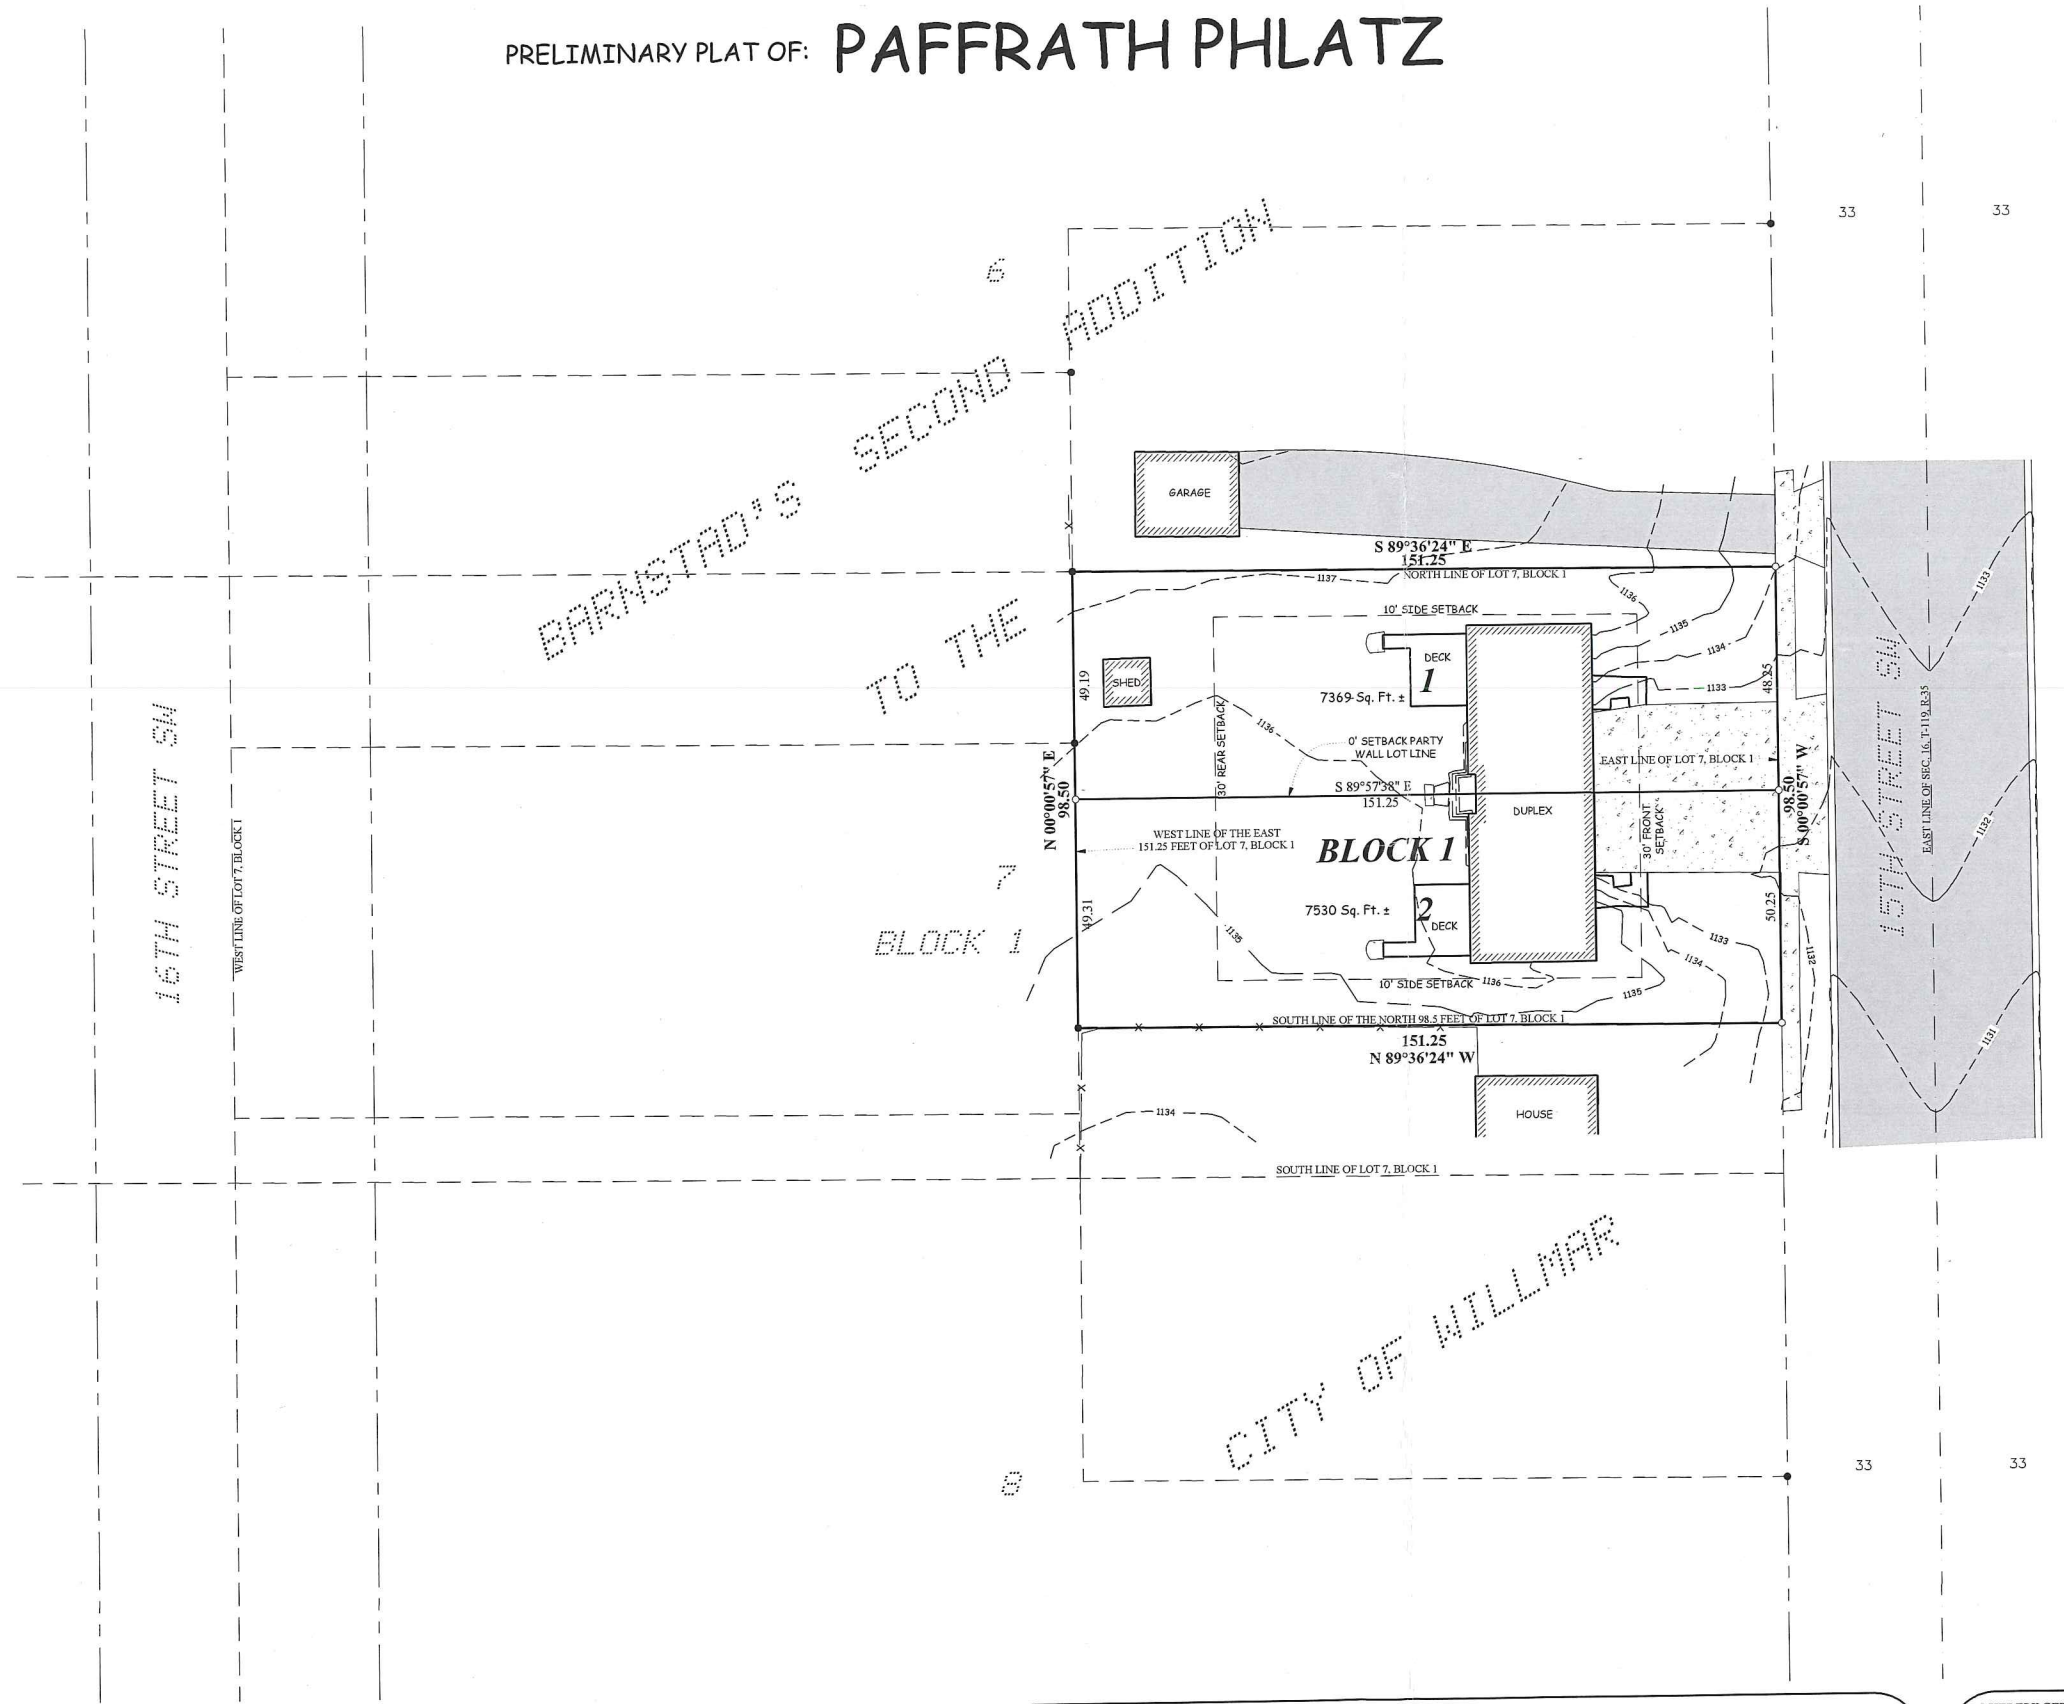

Sarah Swedburg
Planner

PRELIMINARY PLAT OF: **PAFFRATH PHLATZ**

LEGAL DESCRIPTION

The North 98 1/2 feet of the East 151 feet 3 inches of Lot 7, Block 1, Barnstad's Second Addition to the City of Willmar, according to the map or plat thereof on file or of record in the Office of the County Recorder in and for Kandiyohi County, Minnesota.

TOTAL PLAT AREA=14,899 SQUARE FEET +/-

PLANNING COMMISSION – FEBRUARY 19, 2020

STAFF COMMENTS

1. PAFFRATH PHLATZ MINOR SUBDIVISION – FILE NO 19-05:

- The applicant is Justin Paffrath representing 490, LLC of Spicer, MN.
- The applicant is requesting a subdivision that would allow a duplex to be split along a party wall on property described as: East 151.2 feet of the North 98.5 feet of Lot 7, Barnstad's Second Addition (908 & 910 15th St SW).
- The subdivision meets the qualifications of a Minor Subdivision.
- The parcels are accessed off of 15th St SW via a shared driveway.
- The parcels are zoned R-2 (One- and Two-Family Residential).
- A Conditional Use Permit for a PUD has been submitted by the same applicant and the previous item was a review of the application.
- All lots meet the minimum lot size requirements according to PUD Standards.
- No park dedication fees were paid on previous plats. Current Park Dedication fees are estimated at approximately 1,043 square feet or \$1,722, based off of the Kandiyohi County Land Value of \$24,600.

Fire Chief/Fire Marshal: I have reviewed the Paffrath Phlatz Plat. It appears that this area meets our current fire service needs. This may change if building plans are submitted.

MUC: Electric currently served by PED on Southeast corner of lot. Each side of duplex has separate meter.

If individual premises are to be under separate ownership, each premise shall be served by a separate water service.

*In further conversations between City & MUC Staff & Justin Paffrath, it is allowable for the existing shared water and sewer lines to remain in place as long as the proper legal instruments are recorded with the plat to determine responsibilities for future repairs, access, and maintenance.

Engineering Department: No changes are proposed to the public street; none are needed. Sanitary sewer exists in 15th St SW. It is assumed the sewer service will remain unchanged. It is suggested that the applicant address concerns with regard to maintenance of the on-site sanitary sewer system. No changes are needed to the sanitary sewer system.

Considering no changes are proposed to the site, there are no requirements to manage stormwater.

RECOMMENDATION: Approve the preliminary plat with the following conditions:

- A. Declarations/covenants for party wall, exterior maintenance, & shared driveway shall be submitted to Staff and recorded concurrently with plat for ease of tractability.
- B. Park Dedication or Cash in Lieu shall be paid or dedicated prior to recording of final plat.
- C. A separate water service shall be installed for the proposed Lot 1, Block 1 dwelling unit, as required by MUC, or the shared portion of the water line shall be covered in the declarations/covenants.
- D. All Fire Chief/Marshall, Engineering/Public Works, and MUC comments shall be met, adhered to, and additional information supplied as requested.

What is the Renaissance Zone?

- It's a new zoning layer over the top of the existing federal "Opportunity Zone" (show map)
- It's an area that was once the most prosperous part of Willmar – where the wealthiest residents lived and where nearly all the community's businesses were once located
- Today, according to the U.S. Census, it is the poorest part of Willmar
- The Renaissance zoning layer is a 5-year pilot program intended to revive and diversify the area
- The Renaissance Zone will be comprised of 8- 10 economic development incentives intended to magnify the attraction and impact of the Opportunity Zone. More importantly, the Renaissance Zone will make development incentives available to local business owners and developers.

What incentives are included?

- **Tax Abatement**
 - Current taxes would continue to be collected – there would be no loss of taxes!
 - The tax abatement is only on the improvements
 - City benefits from improvements immediately, but defers increased tax benefit until later.
- **Free Permits**
 - Currently, 96% of all permits are for construction in areas outside the Renaissance Zone!
 - Benefits from increased development investment within the zone will eclipse the small amount of revenues received
- **Free City-Owned Land**
 - Property that is not needed for a public purpose is available.
 - The transfer of City-owned property is subject to public notice and City Council authorization.
 - Development proposal must meet City SF, housing, parking, height requirements to get free land
- **Heritage Designation**
 - To preserve culturally significant buildings and uses
 - To provide incentives to the owners of these properties to return them to their former glory
 - To give architecturally significant homes the opportunity to be moved to another location before they are demolished
- **Matching/Forgivable Loan for Façade Renovation**
 - Idea is to lottery five (5) \$10,000 matching loans each year to commercial property owners in the Renaissance Zone
 - Application and proof of matching funds must be submitted in order to enter lottery
 - 20% forgivable each year after loan disbursement date
 - 5-years, loan is forgiven
- **Removal of Holiday/Weekend Parking Restrictions**
 - To encourage and make access to downtown unrestricted on weekends.
- **Parking Reduction Allowances for Desired Construction**
 - To reduce congestion
 - If project is generally large, has public parking, has bike parking spaces, has electric car charging stations, etc.
- **Open Zoning**
 - Welcome all proposals for review and approval by commission and council
 - To foster creativity and options that we may not have considered
 - Encourage entertainment uses, to complement the 1st St Commercial district rather than compete with it (Restaurants, Bars, Art/Theatre, Experiences, etc.)

Purpose

Willmar’s Renaissance Zone (WRZ) overlay is intended to further encourage economic development and investment opportunities in Willmar’s Opportunity Zone (WOZ). The WRZ Program includes a property tax exemption as the primary incentive, which includes the possibility of a five (5), ten (10), or fifteen (15) year property tax exemption for qualified projects that meet the minimum investment threshold and objectives outlined in this program. WRZ property tax exemption benefits are only available to eligible projects on properties that are located within the defined WRZ boundary.

I. WRZ Abatement Incentive Objectives

A. Vision

The Willmar Renaissance Zone (WRZ) overlay vision is as follows:

1. **Economic Sustainability:** Encourage urban housing development that transforms downtown Willmar into a self-sustaining economy that strengthens current businesses and continually attracts new commercial projects.
2. **Household Diversity:** Maintain a regionally-demographically-pegged mixture of upper-, middle- and low-income housing units, so that downtown remains a place for everyone in relation to and within a 5% deviation from combined levels found within the city and its 2-mile extraterritorial jurisdiction.
3. **Cultural, Health & Entertainment Center:** Ensure that downtown Willmar represents the cultural heritage and economic diversity of the area by attracting development investments that increase the downtown resident population and increase the number of visitors/patrons to downtown. The creation of a highly-active and prosperous downtown will be achieved through (a) high-density mixed-use design, (b) the repositioning and reinforcement of downtown as the cultural, health and entertainment center of Willmar, and (c) through the dedication of public spaces and common areas for events.
4. **Downtown for Everyone:** Celebrate Willmar's cultural and economic diversity by ensuring there is a demographically appropriate variety of housing, retail, office space and community events. For instance, maintaining a demographically representative level of downtown housing costs will ensure that downtown is for everyone, and will maintain downtown as an inclusive place for all visitors and residents alike.

B. Goals

The Willmar Renaissance Zone (WRZ) overlay focuses on renewal, investment and redevelopment. The goals outlined below are the items that the City of Willmar envisions are necessary in order to produce a downtown environment that is consistent with the tenets of the vision statement. Further, the goals shall be utilized as an element of the criteria that submitted WRZ applications are reviewed against for compliance.

1. **Activity Generators:** Develop and encourage activity generating spaces and buildings along the Renaissance Zone's east-west corridors and 1st Street.
2. **Walkable Districts:** Create "walkable districts" that integrate a wide range of pedestrian activities, hidden parking facilities and cultural attractions that encourage outdoor street activities while mitigating auto parking and congestion challenges.
3. **Ground Floor Uses:** Reserve ground floor land uses to those that will encourage streets to come to life – retail, cafés, restaurants, bars, galleries and other public facilities. There may be residential uses on the ground floor, but they should not be located on the primary east-west commercial corridors in the downtown core.
4. **City Center:** Make Litchfield Avenue and 1st Street Willmar's "Center" of a pedestrian-friendly entertainment and urban housing neighborhood that has a self-sustaining higher population that anchors Willmar.
5. **Urban Design:** Projects will embody strong urban design principles that will differentiate the ground level with pedestrian orientated design that will enhance the streetscape through building configurations that reinforce block corners, high lot coverage percentages, minimal urban setbacks, and provide street level interior to exterior transparencies.
6. **Transportation:** Manage downtown transportation, accessibility and parking in a manner that will allow for continued growth in commercial development and make the zone multimodal-friendly.
7. **Safe Streets – Safe Neighborhoods:** Encourage safe streets and safe neighborhoods by encouraging urban and building designs that use "natural surveillance" through high visibility, lively and active streets, and defensible space
8. **High Quality Housing:** Encourage the production of mixed-use projects that include high-quality housing that is targeted to meet regionally-demographically-pegged levels of middle-, upper- and low-income households.
9. **Infill:** Encourage projects that are the highest and best use of land, such as projects that eliminate and

repurpose surface parking lots, vacant land and other underutilized parcels into higher-density and higher-value uses. Infill projects shall also conform to urban design goals in number 5 above.

10. **Downtown Neighborhood Thresholds:** Enhance auto and pedestrian entry experiences at major points of access, with landscape architecture designs at major corridors into downtown - to create implied and literal gateways. Particularly at entry points on 1st Street, Hwy-12, Litchfield, Becker, Trott and Minnesota Avenues.
11. **The Place to Be:** Reinforce downtown as the entertainment/cultural/recreational center of Willmar – a preferred destination for visitors/conventioners and an entertainment center for residents.
12. **24/7/365:** Add 500 additional housing units over first 5-year period of the renaissance zone pilot program to begin the creation of a perpetually occupied and self-sustaining urban downtown neighborhood.
13. **Community Events and Celebrations:** Coordinate public and private efforts to enhance identification of downtown as an entertainment district with public street and space activities that create strong community connections between people, places and events.

II. PROJECT CRITERIA

The following criteria shall be used to approve applications for the Willmar Renaissance Zone (WRZ) abatements.

C. Renovation Projects (residential, retail, offices, or mixed-use)

1. Is the use(s) consistent with the WRZ overlay's vision and goals?
2. Will exterior renovation be sufficient to eliminate all deteriorated exterior conditions?
3. Does the scope of the renovation comprehensively address both the interior and exterior of the building?
4. Does the renovation comply with minimum investment thresholds (Section 3, I)?
5. Will the renovation create common area(s)/public space(s) that enhance the pedestrian streetscape and amenities?
6. Weight the merits of the project in relation to any other proposals.
7. Will the renovation preserve any historic- or heritage-designated building(s)?

D. New Construction Projects (residential, retail, offices, or mixed-use)

1. Is the use consistent with the WRZ overlay's vision and goals?
2. Do project costs comply with minimum investment thresholds (Section 3, I)?
3. Will the project create common area(s), public space(s) and/or amenities that enhance the pedestrian streetscape?
4. Weight the merits of the project in relation to any other proposals.
5. Will the architectural design of the project fit contextually and will it enhance the area?

III. MINIMUM INVESTMENT THRESHOLDS

To qualify for consideration for a Willmar Renaissance Zone (WRZ) abatement, each proposal must meet the following minimum criteria.

E. Intent

Investment thresholds ensure significant investment levels are made as part of an approved WRZ project; consistent with the vision and goals set forth in this WRZ overlay.

F. Financial / Cost Breakdown

Financial summary shall be submitted with the WRZ application and be in sufficient detail to document costs and the anticipated total capital investment. Please note that this financial breakdown will be utilized by the city to determine compliance with and approval of WRZ incentives after project completion. Subsidy layering is required to be shown in the estimated budget and pro forma.

G. Capital Cost Definition

WRZ identifies capital costs as the cost incurred for the demolition, repair, replacement or renovation of a building’s exterior, roof, structural systems, electrical/plumbing, heating/ventilation/air conditioning systems, windows, exterior doors, elevator improvements and accessibility improvements. In addition, capital costs shall include any soft costs, such as architecture and management fees. Any other costs included in determining the total WRZ investment, but do not meet the definition above, may be considered by the City of Willmar during the project approval process.

H. Square Footage Calculations / Applicability

For purposes of calculating ‘per square foot’ values, the investment figure shall be the total gross square footage of entire building, excluding unfinished/unoccupied basements. Parking garages that are part of a commercial project, or alone provide public parking, are abatement eligible, but do not satisfy any minimum SF requirements for commercial projects.

I. Thresholds

The following table shows minimum investment thresholds for determining the term of the tax abatement.

Willmar's Renaissance Zone Overlay			
Property Tax Abatement			
<i>(State of MN Property Tax Exemption: Years 1-5 = 100%; after Year-5, exemption cannot be 100%)</i>			
Minimum Investment Per Square Foot (SF) Thresholds			
Term	Renovation	New Construction	Abatement Percentage
5 years	\$30 SF	\$75 SF	100%, Years 1-5
10 years	\$80 SF	\$125 SF	100%, Years 1-5 75%, Years 6-10
15 years	\$130+ SF	\$175+ SF	100%, Years 1-5 75%, Years 6-10 50%, Years 11-15

Minimum project thresholds:

- All projects must have at least 10,000 Gross SF above grade
- Mixed-use projects with a housing component shall have at least 4 dwelling-units.
- Housing-only projects shall have at least 10 dwelling-units, and must have covenants designating at least 5% of the units (percentage rounded down and not less than 1 unit) as being at rents for households at 60% Area Median Income (AMI)
- Renovations projects shall meet a minimum renovation investment of 50% of current assessed value. If a renovation project includes a distinct change of use and a housing component, the project shall have at least 4 dwelling-units.
- Single-family residential, government-owned, and religious-organization owned properties are not eligible.
- All projects must be at least three levels (not including a mezzanine)
- Land Value and Current Building Value remain taxable

J. Waiver

City Council reserves the right to deviate from above approved investment threshold requirements, but developers must request such action in writing. Developer is encouraged to include information that will support their written request. Willmar’s Director of Planning and Development and/or Director of Economic Development Commission will investigate developer’s request and may require any additional information they deem necessary to support their conclusions and recommendations to Council. City Council may approve or deny developer’s request at their discretion for any reason.

IV. PROJECT SELECTION AND REVIEW

K. Application Process

Each submitted application for a Willmar Renaissance Zone (WRZ) abatement will be processed via a review process that will be coordinated by the City of Willmar. Applications must include the following:

1. Completion of Cover Sheet
2. Street address and legal description. If proposed project involves more than one parcel, please provide relevant information for each parcel
3. Current property owner(s)
4. Name of applicant(s), mailing address, phone number(s), email(s) and type of entity (partnership, LLC, S-corporation, etc.)
5. Current use of property
6. Square footage of the lot and building (list each floor separately)
7. Describe the impact this project has on any historic- or heritage-designated properties
8. Type of project (new construction or rehabilitation; residential, retail, offices or mixed-use)
9. Project Description, including the scope of work, a detailed cost estimate of the work to be completed, and justification that the improvements that will meet the minimum investment thresholds. Please provide a break-out of "capital improvements," and explanation for how the project will meet the City's investment guidelines. Also, describe anticipated housing income mix, expected date of 95% occupancy, percentages of retail, housing and/or office space (as applicable), initial operating reserves prior to lease-up
10. Describe how the project enhances Willmar's Opportunity Zone in relation to program objectives stated in sections IA and IB above. Please be as specific about amenities, housing types, retail space, office space, parking, etc.
11. For renovation projects, present the extent of exterior renovation and new improvements to the street facing side(s) of building – include plans and/or renderings as applicable
12. Estimated tax impact of Zone incentives to the applicant: List the current estimated market value of the building, the current annual property tax on the building, the estimated as-if market value of the building after completion, and the estimated five-year impact
13. Provide evidence that the applicant is current on state and local taxes, including a tax clearance letter from the State of Minnesota. Staff can provide a sample submittal letter as a template

L. Exemption Start Date

City of Willmar will start the property tax exemption once the project has met the required investment threshold and received a Certificate of Occupancy. For final approval, submit a final accounting-proforma demonstrating that the Project has met the minimum investment threshold prior to January 2nd to receive the earliest possible property tax exemption. The submission of the final accounting-proforma impacts the timing of when the exemption is reflected on taxes payable. For example, a final accounting submitted in December 2020, is certified January 2021, and the exemption reduces property taxes payable for 2022. It is therefore the responsibility of the Project Developer to time the project accordingly.

M. Incentive Packages

WRZ incentives are eligible to be combined with Opportunity Zone incentives. Single-family residential, government-owned improvements and buildings owned by religious organizations are not eligible for Renaissance Zone incentives

N. Other Commissions / Approval Processes

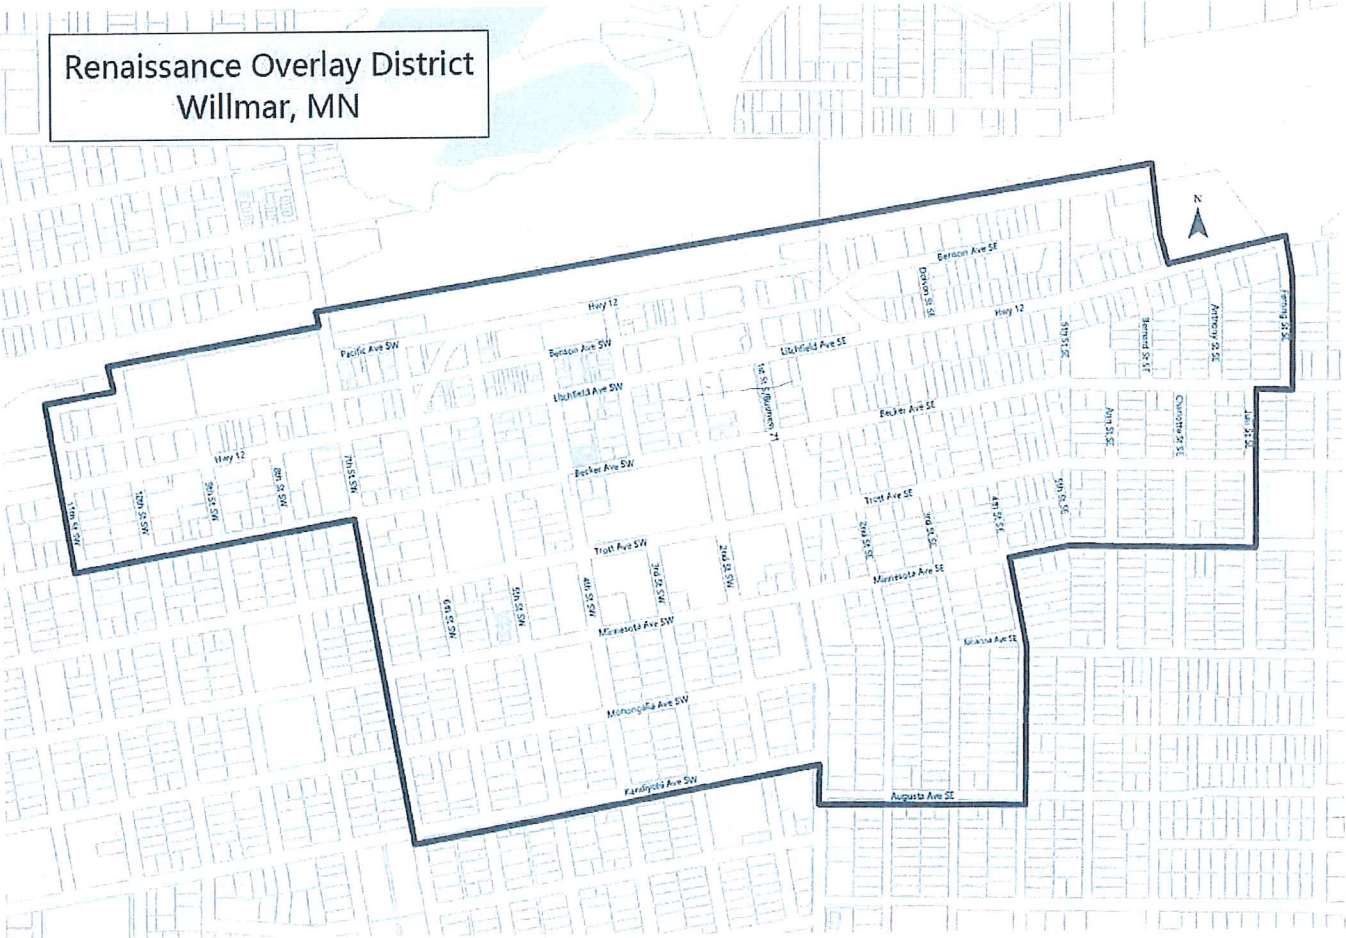

The applicant may be required to secure approvals through other commissions or boards. An approved Renaissance Zone project does not override or supersede any other needed approvals from the Opportunity Zone Program, Planning Commission or other boards, commissions or committees having review authority.

O. Minor Revisions

The City Administrator, or their designee, may authorize minor revisions to this Policy when deemed to be in the best interest of the City and which does not change the overall intent of the Policy as originally approved by the City Council.

V. BOUNDARY

Willmar Renaissance Zone (WRZ) property tax abatements are only available to eligible projects that are located on properties within the defined WRZ boundary.

RENAISSANCE ZONE OVERLAY

Free Permits Incentive

Effective Date

Pending

D R A F T – 01.22.20

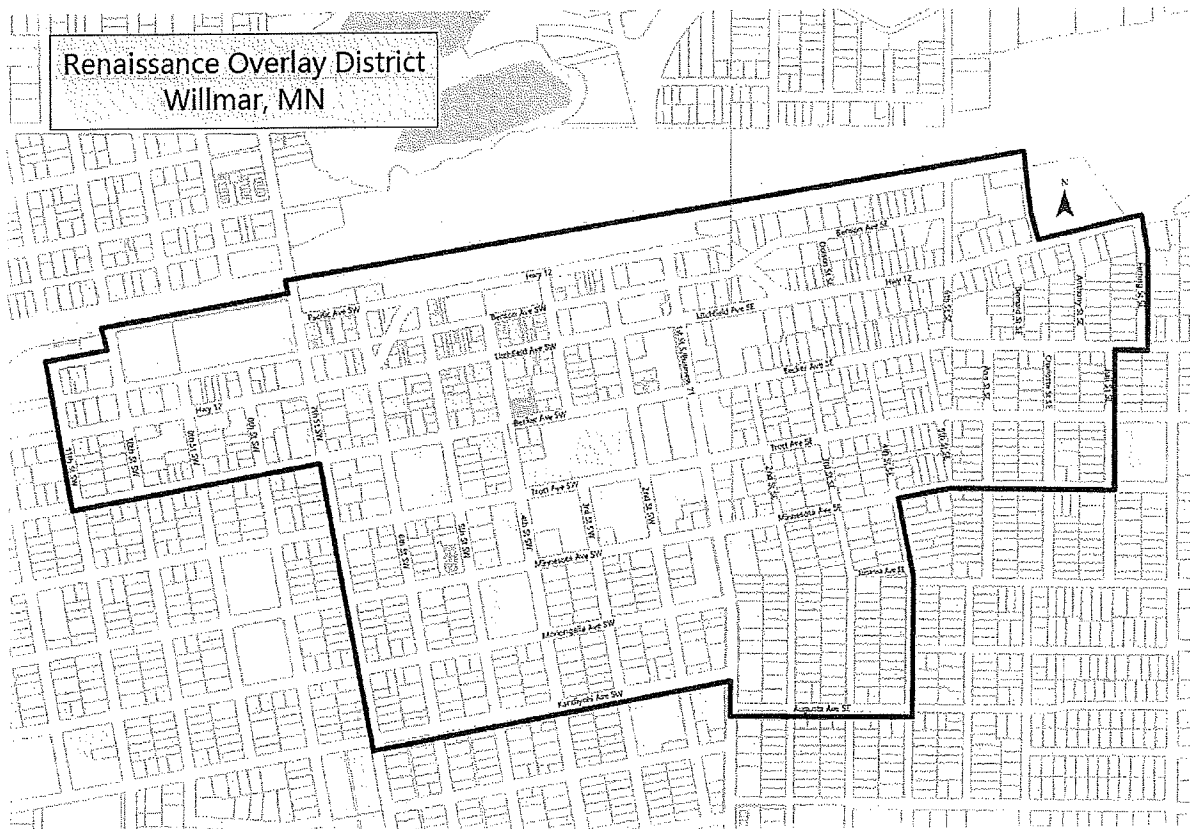

Willmar Renaissance Zone Incentive Overlay Free Permits Incentive

Per Minn. Statute 326B.121 Subd. 2(g), a municipality may adopt any ordinances related to zoning, subdivisions and/or planning, unless the ordinance conflicts with a provision of the State Building Code that regulates components or systems of any structure.

Establishing permit fees does not conflict with this provision, and the permit fee can be zero-dollars (\$0). Additionally, the municipality may establish different economic development zoning districts with different fees than other parts of the jurisdiction. However, the municipality must pay the full State surcharge for each permit issued, which is based on the valuation of the structure per Minnesota Statute § 326B.148

All City of Willmar building, plumbing and mechanical permit fees; Sewer Access Charges (SAC); Water Access Charges (WAC); Signage Fees; and, Land-Use Fees will be waived for commercial construction projects that meet the following minimum requirements:

- The parcel where construction is to occur shall be within Willmar's Renaissance Zone (WRZ)
- Improvement costs must be equal to or greater than \$10,000

Renaissance Zone Incentive Overlay
Cost-Benefit Review: Free Building Permits

The table on the upper-right, lists three recent sample projects and the approximate real estate tax revenues that the minimum City will receive from each. Please note, that these are 2020 tax revenue figures would be compounded and likely significantly higher in the future.

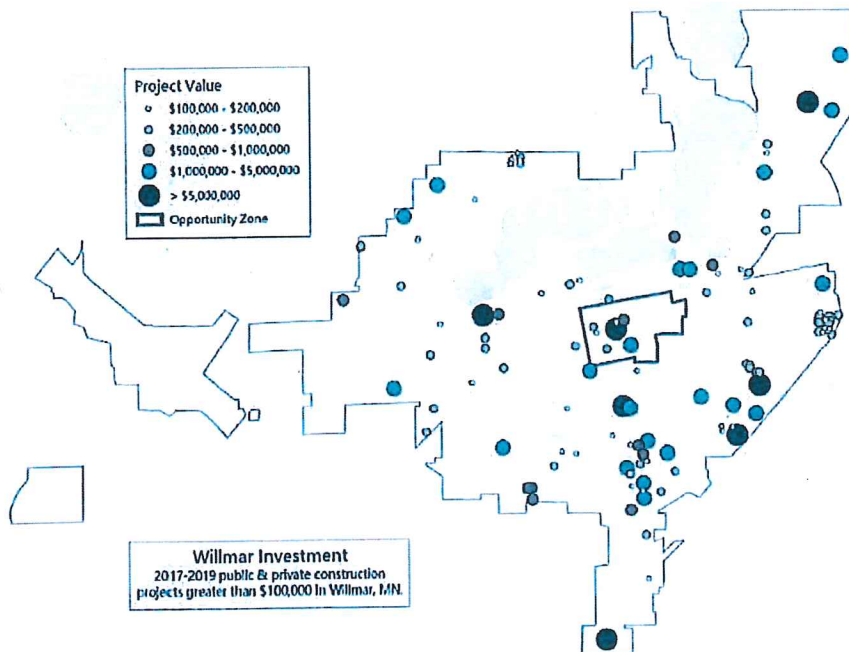

The table in the lower-right, lists the annual building permit fees received within the Renaissance Zone boundary for the past 3-years, their Mean average of about \$27K, and an estimated portion of fees that will be used as a development incentive (Likely in the \$10K - \$15K range). To put this more into perspective, last year, only \$22K of the total \$500K in permit fees were received from the Renaissance Zone area. The largest dark blue circle shown in the map is for improvements made to the hospital, which, as a government-owned building would be excluded from receiving free building permits. The light blue circle in within the RZ boundary is Legacy Plaza, a project type that would be eligible, but with a minimum of two additional stories above the retail.

The table in the upper-left provides housing goal break down.

Based on the below, it is estimated that just one or two 24-unit buildings, with a value of approximately \$2M each, would breakeven with permit fee incentives within five years of property incentive expiration.

RZ Goals		
	15yr	Buildings
10yr Goals	1000 units	20-40 Buildings (25-50 Units Ea.)

Hypothetical Project Samples	
Comp Projects	City Tax Revenue
15 th St Flats 47 units \$127K unit \$6M	\$48K
Herzog 72 units \$66K unit \$4.8M	\$39K
AEHM 24 units \$75K unit \$1.8M	\$15K
Mean (48 units Avg)	\$34K

Annual Permit Revenues Within Renaissance Zone	
Year	Building Permits SAC/WAC Signage
2019	\$21,619
2018	\$39,284
2017	\$19,534
Mean	\$26,812K \$27K - \$15K (65%*) =
Total Incentive	\$12K Free Pmts Year (of \$500K total city-wide)

Source: Esri, HERE, Garmin, FAO, NOAA, USGS, © OpenStreetMap contributors, and the GIS User Community

*Historically, 65% of building permits are under the RZ's \$10K threshold for free permits. Represents approx. \$15K of the \$27K total fees from Building Permits, SAC & WAC, and Sign Permits. Only \$12K of the \$27K will be used as a development incentive.

Willmar Renaissance Zone Incentive Overlay Free City-Owned Land

The City of Willmar acquires and owns property within the community to provide a variety of public services and development needs. Most City-owned property is not for sale. However, property that is not needed for a public purpose is available. The sale of City-owned property is subject to public notice and City Council authorization. Upon City Council approval, applicants acquire City-owned property in the WRZ for only one dollar (\$1), plus the required closing costs. Various requirements and/or restrictions may apply depending upon the funding source used for the original acquisition, land use regulations, the City's development objectives, among other factors.

Minimum Development Requirements

As a development incentive, available parcels within Willmar's Renaissance Zone (WRZ) may be acquired virtually free, if the below minimum development requirements are met:

- The City will not consider the conveyance of City-owned land for future speculative purposes
- Construction must begin within 12-months of conveyance
- The City retains the right to issue Requests for Proposals (RFP) for any City-owned land
- 90% lot coverage required
- Mixed-use projects with a housing component shall have at least 4 dwelling-units.
- Housing-only projects shall have at least 10 dwelling-units, and must have covenants designating at least 5% of the units (percentage rounded down and not less than 1 unit) as being at rents for households at 60% Area Median Income (AMI)
- Must provide one (1) onsite interior parking space for each housing unit
- All projects must be at least three levels (not including a mezzanine)
- Land value remains taxable
- The development project does not include single-family housing, government-owned improvements or buildings owned by religious organizations.

Process

1. Complete Application

- In addition to the City's application, purchaser must provide a letter from lender(s) and any other funding providers stating pre-approval amounts, and other listed personal and business financial records within 30-days of application date.

2. Select parcel and sign purchase agreement

- Developer is required to pay the City one-dollar (\$1). Purchaser is also responsible for paying any title insurance premium and commitment, state deed tax, recording fees, title agent closing fees, etc. The City will not require any additional administrative costs.

3. Obtain necessary approvals

- Planning Commission & City Council shall approve sale of land & purchase agreement.
4. Construction
- Construction must commence within 1-year and be completed within 36-months of land conveyance

Local Heritage Designation

DRAFT - 01.22.20

Willmar Renaissance Zone Incentive Overlay Heritage Preservation

Heritage Preservation Authority

Minnesota Statute § 471.193 sets forth the enabling legislation that allows municipalities to engage in a comprehensive program of historic preservation, and to promote the use and conservation of historic properties for the education, inspiration, pleasure, and enrichment of the citizens of Minnesota. This Statute also provides for a municipality to establish a Heritage Preservation Commission and to delegate or assign powers to enable it to carry out a program of historic preservation activities. Section ### of the Willmar City Code (see Chapter # – Land Use, Plats, and Zoning) contains the Heritage Preservation Ordinance. This ordinance describes the process by which buildings, sites, districts and objects gain Heritage designation (to be developed).

The objective of Willmar's heritage program is to preserve the City's historically significant resources (sites, districts, buildings, and objects) and ensure that they will be available for future generations to recognize, honor, and use. Landmark places, buildings, objects and events reflect and shape Willmar's community values, identity and aspirations.

Need for Heritage Preservation

1. Heritage landmarks are scarce, non-renewable cultural resources that should be treated as valuable community development assets
2. The preservation of Willmar's heritage is an important public service and legitimate responsibility of city government
3. A heritage nomination and review process is necessary because not everything old is significant or worth preserving
4. Saving heritage-significant properties for the benefit of future Willmar generations will always be in the public interest
5. The most effective heritage preservation program is a partnership between owners and city government
6. Heritage preservation is about people and culture, and therefore should be performed in a manner consistent with community values

Program Implementation

The term *heritage designation* is used to refer to buildings, sites, uses, structures, objects and districts that are protected for their historical, architectural, archaeological, or cultural importance. Willmar's heritage preservation program has six steps: 1) program mission; 2) identification of heritage-worthy buildings, sites and uses; 3) evaluation of proposed heritage buildings, sites and uses; 4) heritage designation, 5) building department and planning review and enforcement; and, 6) public education and outreach. This organizational structure is outlined below and reflects the Secretary of the Interior's standards and guidelines for historic preservation as well as current professional practices in heritage preservation planning.

1. Program Mission

- a) Program actions will be carried out in compliance with the comprehensive plan, and revisions and updates will occur when comprehensive plan is periodically updated
- b) A building, site, use, structure, object and/or district qualifies for Heritage designation if it meets at least one of the following eligibility criteria: (a) to preserve an important historic building, site, district associated with a person or event; and/or (b) to retain the integrity of the physical features

necessary to maintain the conveyance of its architectural, archaeological, or cultural significance

2. Identification and Nomination of Heritage-Worthy Buildings, Sites and Uses

- a) Instructions for how to nominate a property for heritage designation will be provided on the City's website
- b) Geographic Information Systems (GIS) map(s) will show the location of existing heritage-designated properties on the City's website
- c) Planner will perform the reviews of local heritage-nominated properties within Willmar's Renaissance Zone and maintain an inventory of all heritage-designated properties.
- d) Planner's review of local heritage-nominated property will be saved in City files per State record retention policies

3. Evaluation of Proposed Heritage Buildings, Sites and Uses

- a) Planner will issue a findings report for each of their heritage eligibility evaluations, documenting such characteristics as the property's location, ownership, date of construction, the relevant historic context and property type, and criteria on which their concluding recommendation is based.
- b) Planner determination of heritage-designation eligibility may be provisional, and it may be necessary for the Planner and/or Building Official to acquire additional information or perform supplementary reviews prior to initiating the process or reaching a concluding recommendation.

4. Heritage Designation

- a) Anyone may nominate commercial properties for heritage designation. Nominations will be considered by the owner of the property, Planning Commission, Development Committee, and City Council. Except in extraordinary circumstances, the nomination for Heritage-designation of commercial real estate will not occur without the consent of the property owner. Nomination and review of a single family home for the "Heritage 90-day Demolition Protection" does not require owner approval.
- b) Heritage designation of single family homes only requires a 90-day moratorium on city issuance of a demolition permit and requires the owner to offer the home for free to anyone that will move it to a new permanent location. The owner must make a good-faith effort to market the home online, advertise three times in the local newspaper of record (once per month), and offer the home through a realtor – stating that the heritage-designated home is scheduled for demolition and is offered for free to anyone that can move the home to another location within 60-days of city approval of their home relocation application – The deadline for receipt of applications is the full 90-day term from date of owner's application to the City to demolish the home. If the party is unable to relocate the home within the 60-day period after application approval by the City, for whatever reason, the owner is released from the demolition restriction and may receive a City permit to demolish the home or may at their choosing give a time-extension to the party seeking to move the home off-site.
- c) An initial Heritage nomination review will be performed by the City Planner for each commercial property nominated. The Planner shall prepare a report that provides the address, location map, and explanation for how the subject property meets eligibility criteria and include the owner's signature of consent.
- d) Heritage-designation of the Willmar Municipal Utilities (WMU) power plant is tentative until January 1, 2022, pending Phase I & II Environmental Assessments and cost benefit analysis to determine the practicality of preserving the WMU building(s).

- e) Planner's heritage nomination report will specify whether the entire or specific parts of the commercial property would be protected from demolition and what components can only be preserved and/or renovated.
- f) Following a public hearing, the Council may formally designate a commercial or residential building by resolution

5. Building Department and Planning Review and Enforcement

- a) Building Official and/or Planner will enforce heritage policies during their permit reviews to ensure that no heritage-designated property is destroyed or damaged as a result of any project.
- b) City will partner with property owners to preserve their heritage-designated property, and provide technical assistance in relation to renovation and restoration.
- c) City will partner with Community Development Committee, Planning Commission and other stakeholder boards and organizations to ensure that heritage management issues are decision making considerations.
- d) When demolition or site destruction cannot be avoided, consideration will be given to how the heritage-designated improvements might be moved to another location, creating records prior to moving or demolition, or by salvaging architectural elements or archaeological data for reuse or curation.
- e) In cases involving permits that are not subject to Building Official and/or Planner review, upon discovery of any work, a reasonable effort will be made by staff to preserve and protect designated historical, architectural, archaeological, and cultural features.
- f) Building Official and Planner will work with other city departments to ensure that heritage designation polices are considered in their project planning
- g) Voluntary requests for Building Official and/or Planner review of work that would not ordinarily be subject to this heritage preservation ordinance, will be welcome. If requested, staff will provide correspondence certifying the project's compliance with Heritage policies.

6. Public Education and Outreach

- a) Design and maintain a high-quality heritage page on the City's website
- b) Develop informational plaques that may be physically attached to or nearby the Heritage property
- c) Partner with the Kandiyohi County Historical Society, neighborhood groups, and other community organizations with shared interests to develop effective public education and outreach programs about the preservation, protection, and modern use of historic buildings, sites, and/or uses

Heritage-Designation Incentives

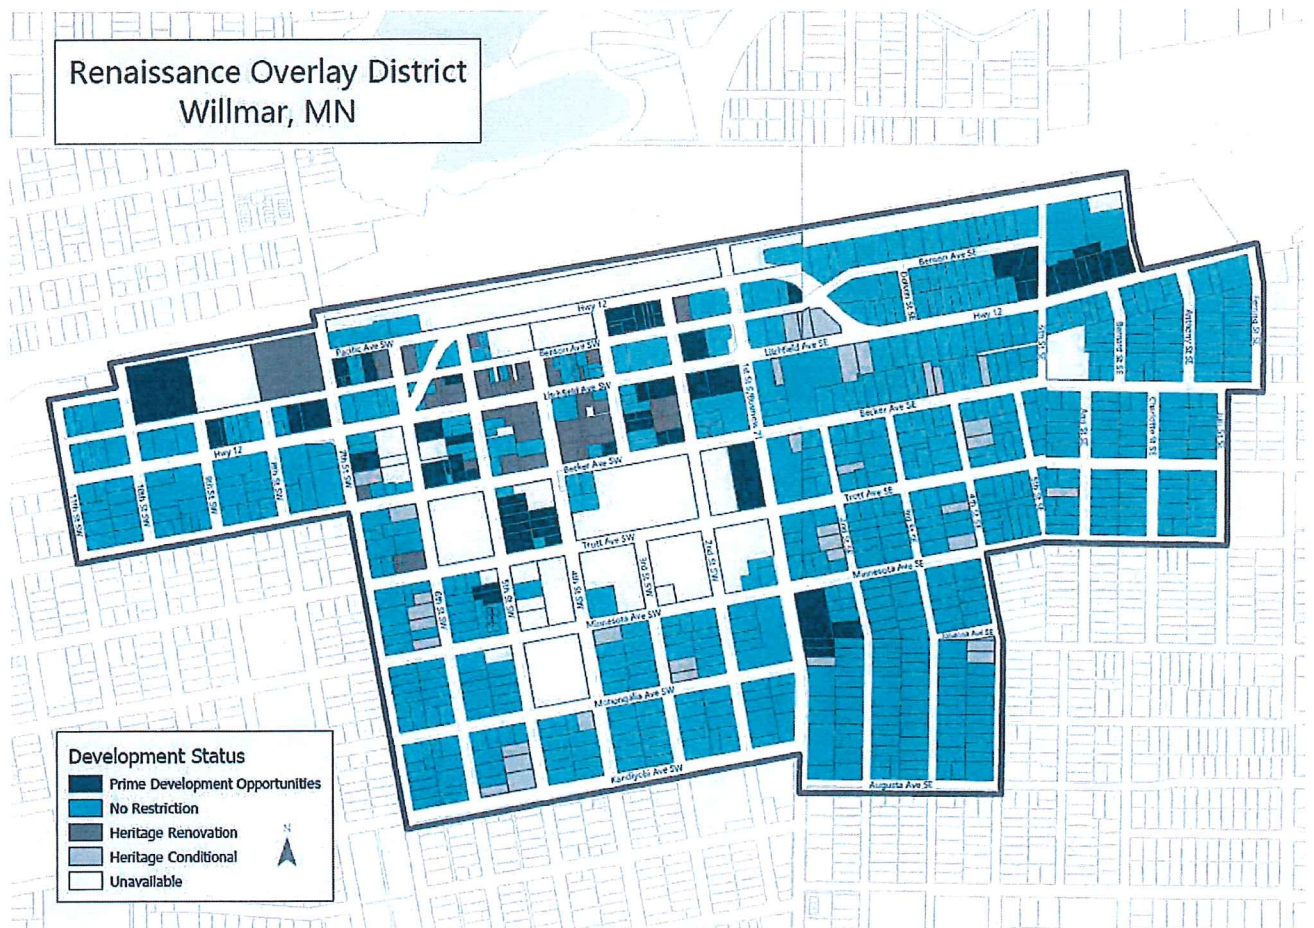

- a) Single family residential, government-owned improvements, and buildings owned by religious organizations are not eligible for Renaissance Zone incentives
- b) City will combine multiple WRZ incentives with Opportunity Zone incentives for preservation work that involves exterior renovations and/or adaptive use of heritage-designated properties, including but not limited to: tax abatements, forgivable loans, free building permits, free signage permits, among others

- c) Heritage-designated properties may receive one or more incentives at one time, but may not receive any additional future incentives for a term of 15-years from the date of last incentive(s)
- d) Heritage-designated properties receiving an incentive, must remain heritage-designated for a 15-year term

Heritage-Designated Parcel Map

Staff have tentatively selected about 50 commercial and 35 residential properties for Heritage designation within Willmar’s Renaissance Zone (Designated single family homes are light-grey parcels and designated commercial buildings are dark-grey parcels). Dark blue are sites most favorable for new development. Light blue parcels are generally available, and require some level of demolition. Selected heritage-designated parcels will be presented to the Planning Commission, Development Committee and City Council for their review and determination of whether any of the parcels will be placed on Willmar’s Heritage Designation List. A map, list and fact-sheets are attached.

In addition, there are a number of properties already registered as historic places, which are separately listed. An asterisk designates which property on Willmar’s list is also on State or National historic lists.

DRAFT – 01.22.20

RZ Renaissance Zone Overlay District

Objectives

The RZ Renaissance Zone Overlay District is established to....

- Encourage the adaptive reuse of heritage-designated & existing infrastructure
- Encourage creativity (reviewed & approved by Committee & Planning Commission prior to Building Permit application)
- Encourage pedestrian-scaled streetscape (e.g. walkability & promotion of activities)
- Encourage density
- Promote the Renaissance Zone as an entertainment district, so that downtown & 1st Street do not compete but complement each other
- Creating healthy, equitable, and resilient community

Proposed Requirements

Allowable Uses

- Elimination of dwelling unit restrictions in residential zones; properties must take into consideration creativity for necessary provisions (e.g. parking; mixed rental/ownership opportunities in the area; green space/play space)
- Encourage contextual uses & creativity
- Encourage entertainment uses (restaurants, specialty retail, arts & culture, experiences, etc.)

Parking

Up to 50% parking requirement credit, based upon the following provisions:

- Below grade “contextual” or “camouflaged” parking (behind buildings or with building-like facades, heavily landscaped, shared, etc.)
- Suitable number of public parking spaces, if retail or office uses are included
- Bike Parking
- Electric Charging Stations
- Shared/Zip car amenity provided to multifamily housing residents by management

Landscaping

- Landscaping areas should be pedestrian oriented with amenities for those walking by, such as seating, fountains, planting sculptures, etc.

Height

- Up to 6 stories allowed (3 stories required for certain incentives)

Setbacks

- Zero lot line setbacks, with allowable 25% and 50% setbacks for every story above 3 & 5 stories, respectively. Setbacks must be landscaped & pedestrian oriented (not parking)

For context, current setbacks are as follows:

- 30' from right-of-way (residential)
- 30' from rear (residential)
- 10' from interior sides (residential)
- 25' from right-of-way (commercial)
- 10' from interior lot lines (commercial)
- 0' (Central Business District)
- 15' from right-of-way (parking surfaces)
- 10' from interior lot lines (parking surfaces & accessory structures – multi family or commercial)
- 5' from interior lot lines (parking surfaces & accessory structures - residential)

Non-Conforming Status

- Reduce or eliminate non-conforming provisions
